COMPANY PROFILE

www.mykha.vn

INTRODUCTION

Established in 2022, MYKHA is a company operating in the maritime and industrial sectors, specializing in the supply of marine equipment, technical materials, vessel services, and industrial solutions.

We serve a wide range of customer needs across the marine, offshore, and industrial sectors, providing everything from equipment and material supply to technical support services.

With an experienced team, strong practical expertise, and a reliable network of trusted partners, MYKHA is committed to ensuring product quality, timely delivery, and the ability to meet demanding technical requirements.

We strive to be a trusted partner, delivering safe, efficient, and practical solutions tailored to our customers' operational needs.

VISION & VALUES

OUR VISION

MYKHA aims to become a trusted and leading company in the fields of marine engineering, industrial equipment and material supply, contributing to an innovative and sustainable industrial ecosystem in Vietnam.

CORE VALUES

- **For Customers:**

Deliver high-quality products, innovative solutions, and responsive services that meet the evolving needs of the maritime, recycling, and clean energy industries.

- **For Partners:**

Build long-term partnerships based on trust, collaboration, and mutual success in an ever-evolving industrial landscape.

- **For Employees:**

Foster a professional, dynamic, and innovative working environment that empowers individuals to maximize their potential, embrace innovation, and achieve continuous growth.

EQUIPMENT & MATERIAL PROVIDED

MYKHA supplies aluminum ladders, rope ladders, and related equipment, ensuring high quality, safety, and suitability for a wide range of applications in the maritime and industrial sectors.

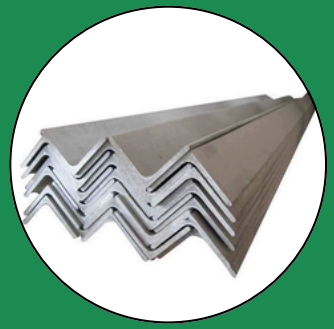
MYKHA supplies high-quality industrial valves and pipe fittings, ensuring durability, tight sealing, and reliable operation in maritime and industrial environments.

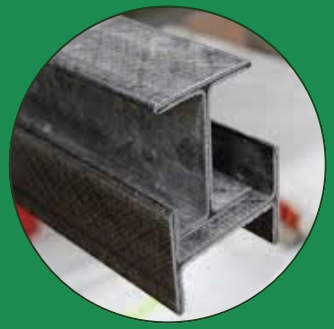
MYKHA supplies a wide range of marine steel doors and windows, designed and manufactured in accordance with stringent technical standards to ensure safety, watertightness, and durability in harsh working environments.

We provide a wide range of strainers and filter baskets, featuring robust construction, durable materials, and efficient filtration performance to remove impurities, protect equipment, and enhance the operating efficiency of systems.

EQUIPMENT & MATERIAL PROVIDED

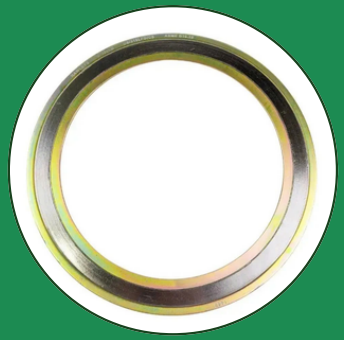
We supply a wide range of mechanical materials, including steel plates, I/U/H-beams, box sections, steel pipes, bolts, nuts, and related mechanical accessories. Our products are sourced from reputable manufacturers and meet technical standards for quality, durability, and load-bearing capacity, making them suitable for various construction and installation requirements.

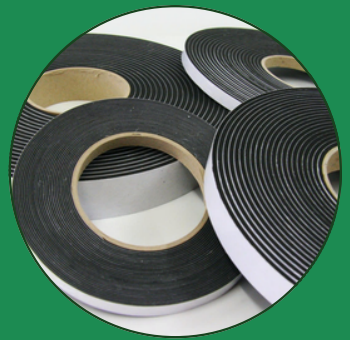




We supply a range of life-saving and rescue equipment, including lifeboats, life buoys, life jackets, and related safety equipment, manufactured in accordance with international safety standards to ensure reliability and effectiveness in emergency situations.

MYKHA supplies a wide range of consumable materials, including graphite gaskets, high-temperature sealing gaskets, lubricating grease, high-temperature grease, and other related technical supplies, meeting the requirements of equipment operation, maintenance, and repair.



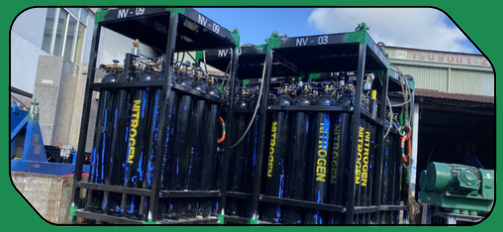


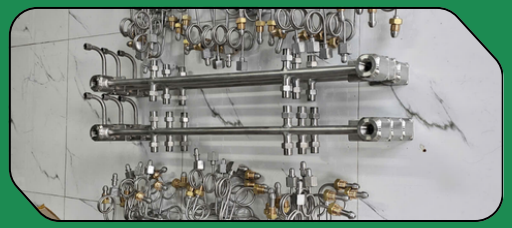
We are committed to supplying a wide range of Marine Fenders, designed and manufactured in accordance with technical standards to ensure effective impact absorption, reduce impact forces, and enhance durability during operation.

SERVICES PROVIDED

Ship Supply Services

- Supply of food provisions and essential supplies for vessels.
- Supply of industrial gases (O_2, N_2, CO_2, etc.) for vessels and offshore operations.
- Oil & gas equipment rental services.





Shipping Agency Services

- Handling immigration, port entry/clearance, inland waterway, and port-to-port procedures for vessels.
- Handling import/export procedures for vessels and cargo.
- Vessel towing and berthing services at ports and anchorage areas.
- Obtaining relevant permits and licenses.
- Crew change services, including visa arrangements, airport transfers, hotel accommodation, shore passes, and boarding permits.

SERVICES PROVIDED

Gas Rack & Industrial Gas Supply

- Supply of gas racks and gas distribution systems.
- Design and assembly according to specific technical requirements.
- Supply of valves, gauges, regulators, and related accessories.
- Ensuring quality, leak-tightness, and operational safety.

Installation, Maintenance & Repair Services

- Provide maintenance, servicing, repair, and upgrading services for machinery and electrical systems in the maritime and industrial sectors.
- Cover a wide range of systems, including engines, generators, medium - and low-voltage electrical systems, automation, pumps, and HVAC, ensuring safety, quality, and long-term operational efficiency for our customers.

PRODUCTS SUPPLIED

- We aim to contribute to sustainable agricultural development by providing high-quality growing soil and organic fertilizers. Our products are suitable for a wide range of applications, including vegetable cultivation, ornamental plants, and perennial crops.
- Our product range includes Mai tree growing soil, vegetable growing soil, organic cow manure, nutrient-rich multipurpose clean soil, microbial organic fertilizer, and orchid growing media.

MYKHA supplies products recovered from the pyrolysis of waste tires and industrial waste, including:

- Steel Wire – High-strength recovered steel suitable for reuse in the metallurgy and mechanical processing industries.
- Recovered Carbon Black (rCB) – Used in the production of rubber, plastics, paints, printing inks, and various other industrial applications.
- Tire Pyrolysis Oil (TPO) – A valuable alternative fuel source used in industrial applications and energy production.
